Dear Valued Customer:

Regarding The 2011 off the Pacific coast of Tohoku Earthquake

We would like to express our sincere appreciation for your kind concerns and warm words of encouragements after the massive earthquake with the magnitude of 9.0 struck off the Pacific coast of the Tohoku region on Friday, March 11, 2011.

Fortunately, our offices and production sites are far away from the stricken areas, we therefore have no immediate big impact on our productions and shipments and we are in normal operation.

We continue to assess the situation for any potential impact that may arise from issues related to the infrastructure, the logistics and the supply chain.

If you have any concerns, please feel free to contact us.

Sincerely yours,

---
